I Intermediate

Sonic is the only tool company in North America who has developed comprehensive tool kits for every professional technician's skill level in the automotive industry. No matter the task, we have the toolsets to match the technician's skill and area of expertise. Our years of market expertise and industry research led us to develop the basic, intermediate, and advanced toolsets, each designed to match the skill level or typical toolset required in most service bays. Our strict adherence to world-class manufacturing standards gives technicians the confidence to trust that Sonic tools are built to be the best tools on the planet. Every tool and toolbox we make is engineered to withstand the tough environments and riggers of service bays and to last a lifetime.

The 456-piece toolset is the set techs need to get virtually any job done. Our years of gathering tool lists from the largest OEM's and auto dealer groups in the country allowed us to develop our three tier toolkits (Basic, Intermediate and Advanced Sets). Included in the Intermediate Automotive toolset are screwdrivers, 1/4", 3/8", and 1/2" sockets, bit sockets, ratchets, multiple styles of wrenches, and utility tools. And of course, all of our tools are built for a long life and are backed by our lifetime hassle-free warranty*.
